

Caleb Farrow

Davis, CA
calebfarrow1@gmail.com

Education

University of California, Davis

MS Applied Mathematics

Expected September 2026

University of Oregon

BS mathematics with departmental honors, magna cum laude, CS minor

GPA: 3.97

June 2024

Technical Skills

Programming and tools: Python (proficient), R (proficient), SQL (basic), Excel (basic)

Data skills: statistical modeling, data analysis, simulation analysis, data visualization

Soft skills: technical communication, stakeholder communication, problem solving, leadership

Research and Data Experience

UC Davis: Center for Neuroscience

Graduate Student Researcher

Davis, CA July 2024 - September 2024, July 2025 - December 2025

- Developed and validated data-driven models of biological processes
- Collaborated with research teams to refine modeling approaches and ensure accuracy

University of Oregon: Kern-Ralph Co-lab

Undergraduate Researcher

Eugene, OR September 2022 - June 2024

- Analyzed large-scale simulation datasets to study coevolution dynamics
- Used R to clean, process, and visualize simulation outputs for research interpretation
- Generated visualizations to identify trends and support research conclusions

University of Oregon: Department of Mathematics

Undergraduate Researcher (Honors Thesis)

Eugene, OR June 2023 - June 2024

- Conducted independent research in random matrix theory, applying advanced statistical and analytical methods
- Presented technical findings in written and oral formats for varied audiences

Teaching and Support Experience

UC Davis: Department of Mathematics

Teaching Assistant

Davis, CA September 2024 - June 2025, March 2026 - present

- Led discussion sections reinforcing quantitative concepts for groups of students
- Evaluated student work and provided structured, data-informed feedback

University of Oregon

Senior Math Tutor, Paper Marker

Eugene, OR September 2021 - June 2024

- Tutored students in advanced mathematics in one-on-one and group settings
- Designed review materials to improve student performance

Other Professional Experience

H&R Block

Tax Specialist

Folsom, CA and Orangevale, CA

December 2025 - March 2026

- Prepared and reviewed tax returns with high attention to data accuracy and compliance
- Analyzed client financial data to identify tax optimization strategies
- Explained technical financial information to clients with varying backgrounds
